

NORFOLK

JOB VACANCY

# Assistant Farm Manager Breckland

Our client is looking to appoint an assistant farm manager to take operational control for the growing of potatoes, onions, carrots, and cereals on 1,000 hectares of owned and rented land in Norfolk.

Reporting directly to the farm manager, this very hands-on role will see the applicant responsible for organising and managing all day to day farm operations. Knowledge and experience of root vegetable production and crop irrigation is essential. PA1 and 2 necessary as duties will include relief spraying.

You must have good man management and communication skills, a can-do attitude and desire for excellence. For the right candidate the role has potential to develop to include more strategic and management input. A competitive remuneration package commensurate with experience will be offered to the successful applicant. Accommodation could be available for the right candidate.

Please apply in strict confidence with a CV and covering letter to Will Mitcham:
